Dear friend,

Happy Easter!

May the new life of the risen Christ be with you!
After the long winter season, spring always comes with new life. We know that, under the ground, new shoots are getting ready to burst out. Welcomed by the warm spring breeze, we open our hearts for the new days come with hope of new life.

All these signs of new life is the joy of Easter. Whatever situation you are in, there the hope of God is. This is Easter blessing for all of us. May God's blessing of new life be with all of you, your family and friends!

As we are near the end of our Lenten journey of following Jesus' way, we enter the Holy Week with thankful hearts for transformation of ourselves into a community of hope. This is the time to get together for sharing our Easter joys. In our sharing our life in the risen Christ, we will know that we are not alone, God is with us always.

We will begin our celebration of Holy Week as we are "walking with Christ hand in hand" with our friends at Hope United Church and Faith Presbyterian Community Church. This is another occasion that we are all connected through the gift of new life, the good news of Easter.
